Serial No. 09/922,482

Applicant elects with traverse the invention of Group I (claims 1-14, 59-73 and 85).

Furthermore, in compliance with the requirement to elect a specific species, applicant elects the species of Fig. 4. Claim 1 is the sole independent claim and is believed to be generic to all the species of Group 1 claims set forth herein.

Since sole independent claim 1 is clearly generic, the indication on page 4 (line 5) of the Office Action that no claim appears to be generic is respectfully traversed. The invention of Group 1 claims are directed to a measurement device for obtaining field characterization comprised of a representation of a three-dimensional nature of the effect of energy fields emanating from a source and acting on a sensor. The measurement device may be constructed using different sensor and other active components depending on the characterization field to be identified.

If there are any fees due in connection with the filing of this response, please charge such fees to our Deposit Account No. 17-0026. If a fee is required for an extension of time under 37 C.F.R. 1.136 not accounted for, such an extension is requested and the fee should also be charged to our Deposit Account. A duplicate copy of this page is enclosed.

In light of the foregoing, the Examiner's reconsideration of this application with a view toward allowance is respectfully requested.

The Examiner is invited to call the undersigned agent if a telephone call could help solve any remaining items.

Respectfully submitted,

Dated: March 25, 2003
